About me

I am a very organized person with excellent time management; I set my goals with time and plan to achieve them. I address myself and others always with respect and work under pressure very satisfactorily. I’ve organized numerous concerts in collaboration with diverse ensembles and different elements like videos, audios, lights design, soloists, choir, among others.

In my free time, I like to do martial arts (I am a black belt in tae kwon do and a blue belt in Hapkido) and watch a good movie with my cat.
